Personal Statement

It is inevitable that a book of this kind should contain apparently many mistakes. Several of our Representatives have stated that they knew personally of students whose names are not in the book, but which ought to be there; also, that some names have not been spelled rightly and that some addresses were wrong. I know personally of at least one student whose address was wrong in the first edition—the mistake being discovered only after the book was printed. The facts are these: The student removed from the state of New York into the state of New Jersey several years before, and after his removal he never sent in any work or notified us of the change in his address. Hence, while his name was in the book, it could not be found, unless his former address was known.

We take every possible precaution to keep our files correct in the matter of spelling the students' names, and any errors in this respect are generally due to the students' signatures not being plain. Our Representatives could assist us greatly if they would write the names of all students whose signatures are not plain on the enrolment blank, in such a manner that the names could not be misunderstood. Several thousand students have become eligible for inclusion in the book since the names were last taken off.

A large proportion of our students complete Arithmetic and perhaps one or more of the other preliminary subjects. Having acquired the habit of studying and not desiring to spend the time necessary to write out their answers to the Examination Questions, they stop sending in their work, but still keep up their studies, using for this purpose their Bound Volumes. Of course the work of such students does not appear on our records, and their names are not included in this book.

In conclusion, we ask every person who receives a copy of this book to read the Preface and very carefully pages xiii–xiv. *If you find any errors in this book, please notify me personally, so that in future editions such errors will not be perpetuated.*

Very truly yours,

J. J. Clark,

Manager Textbook Department

How to Use This List

NAMES and addresses of the students are arranged in the following manner:

The first column gives the name of the student and the last two figures of the year in which he was enrolled. The second column gives his address, the third column indicates the course taken, and the fourth column shows the number of subjects and drawing plates he has completed, and also whether he has received a certificate of proficiency or a diploma. In those cases in which there are ten or more students whose names are given on this list in one town or city, the name of the town or city is printed in bold-face type over the second column. It is then followed by the name of the county in SMALL CAPS. When the number of students is less than ten in any one town or city, the name of the town or city in which the student resides is printed first, and is followed by the street and number, if any, and followed again by the name of the county printed in SMALL CAPS. The name of the state, or country in case of foreign countries, is printed at the top of each page, when practicable, and in the case of the Dominion of Canada, it is followed by the name of the province. The cities and towns are then arranged alphabetically according to the states or provinces, and can be readily located as soon as the state or province has been found.

In explanation of the third column, it may be stated that in order to distinguish our students and to tell in all cases what course each is taking, whether it is a revised course or an old course, etc., we give each student what we call a "class letter," and also an identification number.

This class letter is usually limited to one or two letters, but may, in a few cases, consist of three letters. These class letters and numbers are given in the third column, and are followed in the fourth column by abbreviations indicating the number of subjects completed, the number of drawing plates completed, and whether the student has a diploma or certificate of proficiency. The number of subjects is indicated by the number preceding the letter S. The number of plates is indicated by the number preceding the letter P. If the student has a diploma, the preceding abbreviations are followed by the letter D, and if he has a certificate of proficiency, the letter C is used instead of D. There is really very little difference between our diploma and our certificate of proficiency. The diploma we reserve for the longer and more difficult courses, and the certificate of proficiency is issued to students that have completed single subjects or short courses.

In many cases Instruction Papers are printed in several parts under the same title. In all such cases the subject has been regarded as a single paper, except in a few instances where this was inadvisable. For instance, our course in Complete Advertising is comprised in thirteen papers under the general title of Retail Advertising, and identified as Retail Advertising, Part 1, Part 2, and so on to Retail Advertising, Part 13. For the purpose of this compilation we have assigned a number of new titles to these papers, so as to make the course appear to consist of more than one subject, as it really does. This has also been done in the case of one or two other courses.

In case it is desired to look up in the large volume the record of any particular student, as, for example, the record of E. E. Appel, 171 Manton St., Pittsburg, Pa., we look in the Index to States, printed on the page following the title page, for Pennsylvania, and in its regular alphabetical order find the section number and number of the first page of the state in this section. The section number is placed at the top of each page, on the head line, opposite the page number; to distinguish it from the page number it is preceded by the printers' section mark (§). Consequently, a reference like § 2, page 117 (the number of the section and first page of the state of Pennsylvania) is found by looking along the inside edges of the headlines until § 2 is found, and then through § 2 until page 117 is found. This

directory, for the convenience of our Representatives, is also published in five small volumes; each volume has its own section number applied to all the states it contains. Consequently, when consulting one of the small volumes, the section number may be disregarded; simply find from the Index to States printed on the second cover page on what page the state begins. Having found the state, we then find Pittsburg and the student's name, opposite which is, in the third column, R 2657, and in the fourth column, 18S, 25P, D. The letter D, as before stated, signifies that this student has completed his course, but if it is desired to know what subjects are included in the course, refer to the index immediately following this explanation, and look for R in the left-hand column. It is there seen that R signifies the Railroad Engineering Course, and that the list of subjects included in this course is given on page *10*.

It will be noticed that the page numbers in this list are printed in Italics, to distinguish them from page numbers in the general list. Referring then to page *10*, there will be found under the heading Railroad Engineering the list of subjects included in the course. The twenty-five drawing plates referred to as completed are included in the subjects of Geometrical Drawing, Mechanical Drawing, and Mapping. Under the list of subjects included in this course will be found a note stating that Formulas is not sent to students taking Algebra directly after Arithmetic. This note was placed here for the reason that some of the students in the Railroad Engineering Course complete both subjects and others only one. Hence, while both classes of students receive a diploma, one class studies one subject less than the other class. In a few cases, it will be noticed that the name of the same student appears twice. This is because he has taken two separate courses. In all cases in which plates are drawn in connection with the study of a subject, the number of plates required to be drawn follows the title of the subject.

In arranging the names of the subjects forming the various courses, these subjects have been placed in the order in which the student usually studies them. In some cases students have been permitted to study subjects outside of the regular order, when this would not interfere with their successfully completing their courses. Some courses have been abolished and others substituted for them. Such courses are placed at the end of the list.

In a few cases, the class letters printed differ in some respects from the class letters in regular use. It has been necessary to change these letters, for the reason that formerly we sometimes used the same class letter for several courses. For instance, all the courses included in our School of Steam Engineering were originally designated by the class letter H. We have added to this letter one or more other letters so as to identify the course completely.

The list does not include students who take only one subject, as, for example, the subject of arithmetic, or algebra, or spelling, etc.; it also does not include the names of students who have requested us not to make their names and addresses public, nor those whose record cards are marked "Dead."

LIST OF SUBJECTS

The number opposite each class letter refers to the page on which the list of subjects of the Course represented by the class letter is given.

For class letters beginning with **CS** or **MH** and having four or more letters, refer to "Shop Practice, Combinations of Two, Three, or Four Divisions," page *16* of the List of Subjects.

Until March 1, 1905 the subjects of Arithmetic, Spelling, Slanting or Vertical Penmanship (either one optional), Grammar, Punctuation and Capitalization, Letter Writing, Geography, U. S. History, and U. S. Civil Government were sold under the title of English Branches, First, class letter I A; the subjects of Arithmetic, Spelling, Slanting or Vertical Penmanship (either one optional), Grammar, Punctuation and Capitalization, and Letter Writing were sold under the title of Engl sh Branches, Second, class letter I B. Since then the student is permitted to choose, if enrolled under the class letter I A, any nine of the subjects given in the list; if enrolled under the class letter I B, the student may choose any seven of the subjects given in the list.

Mechanical Engineering—M C; M A; L E; M C X

This Course contains all the subjects taught in the Mechancial and Shop Practice Courses given on pages 15 and 16.

Mechanical—M W; M U; M B; C; M W X

Arithmetic
Formulas
Geometrical Drawing, 9 P.
Mechanical Drawing, 16 P.
Practical Projection, 7 P. (Optional)
Development of Surfaces, 5 P. (Optional)
Sketching
Geometry and Trigonometry
Elementary Mechanics
Hydromechanics
Algebra
Logarithms
Pneumatics
Heat
Steam and Steam Engines
Strength of Materials
Applied Mechanics
Steam Boilers
Machine Design
Elements of Electricity and Magnetism†
Dynamos and Motors

Formulas is not sent to students taking Algebra directly after Arithmetic. The option of taking Practical Projection and Development of Surfaces is regularly given to students having class letters **MU, MW, MC.** The Paper on Sketching is only sent to students having class letters **MCX** or **MWX.**

LIST OF SUBJECTS
IN
ABOLISHED COURSES OF INSTRUCTION

The Courses listed below were sold for a time and subsequently withdrawn.

Air Brake, Division 3—R Z A

Westinghouse Air-Brake Construction*
Westinghouse Air-Brake Defects*
Westinghouse Air-Brake Operation*
Westinghouse Signal Apparatus*
Westinghouse High-Speed Air Brake*

Air Brake, Division 4—R Z B

New York Air-Brake Construction**
New York Air-Brake Defects**
New York Air-Brake Operation **
New York Signal Apparatus**
New York High-Pressure Control**

Architectural Drawing—D L; D M; U D; L D

Arithmetic
Formulas
Geometry and Mensuration
Geometrical Drawing, 9 P.
Architectural Drawing, 12 P.
Ornamental Drawing, 6 P.
Advanced Architectural Drawing, 18 P. (10 Plates optional)

Architectural Drawing—U

Arithmetic
Formulas
Geometry and Mensuration
Geometrical Drawing, 9 P.
Architectural Drawing, 12 P.

Bookkeeping and Business Forms—B E; X

Arithmetic
Slanting Penmanship
Vertical Penmanship
Single-Entry Bookkeeping
Double-Entry Bookkeeping
Opening, Closing, and Changing Books
Modern Office Methods†

Either part of Penmanship is optional.

Chemistry—L

Arithmetic
Elementary Algebra and Trigonometric Functions
Physics
Theoretical Chemistry
Inorganic Chemistry
Qualitative Analysis
Organic Chemistry

Complete Commercial—B A; C C

Arithmetic
Spelling
Slanting Penmanship
Vertical Penmanship
Grammar
Punctuation and Capitalization†
Letter Writing
Single-Entry Bookkeeping
Double-Entry Bookkeeping
Opening, Closing, and Changing Books
Modern Office Methods†
Stenography

Either part of Penmanship is optional.

Complete Locomotive—H C R O

This Course is a combination of the Locomotive Engineering and Locomotive Running, Division 3, Courses, given on pages 21 and 27.

Complete Stenographic—B B; A A

Spelling
Slanting Penmanship
Vertical Penmanship
Grammar
Punctuation and Capitalization†
Letter Writing
Stenography

Either part of Penmanship is optional.

Inorganic and Organic Chemistry—O

Arithmetic
Elementary Algebra and Trigonometric Functions
Physics
Theoretical Chemistry
Inorganic Chemistry
Organic Chemistry

Locomotive Engineering—H C; H L

Arithmetic
Mensuration
Mechanics
Geometrical Drawing, 9 P. (Optional)
Mechanical Drawing, 7 P. (Optional)
Locomotives
Elements of Electricity and Magnetism*
Dynamos and Motors

Locomotive Running, Division 1—R M
Locomotive Running, Division 2—R N

Locomotive Boilers
Steam, Cylinders, and Valve Gears
Locomotive Management
Breakdowns
Compound Locomotives
Train Rules
Car Lighting (Optional)
Car Heating (Optional)
Electric Headlight (Optional)

Division 1 includes a set of Mitchell's Models, illustrative of Westinghouse Air-Brake Apparatus.

Locomotive Running, Division 4—R P

Steam, Cylinders, and Valve Gears
Locomotive Management
Breakdowns
Compound Locomotives

Mathematics and Physics—I E; W

Arithmetic
Geometry and Trigonometry
Elementary Mechanics
Hydromechanics
Algebra
Logarithms
Pneumatics
Heat

*Printed under the title of Dynamos and Motors, Part 1.

Mechanical Drawing—D K; D J; E D; M D

Arithmetic
Mensuration
Geometrical Drawing, 9 P.
Mechanical Drawing, 16 P.

Algebra, Geometry and Trignometry, Elementary Mechanics, Hydromechanics, Pneumatics, and Heat, were for a time included in this Course. Students having class letter **M D** and a number below 441 were entitled to these subjects.

Mechanical Drawing—D O; D P

Arithmetic
Mensuration
Geometrical Drawing, 9 P.
Mechanical Drawing, 16 P.
Practical Projection, 7 P. (Optional)
Development of Surfaces, 5 P. (Optional)

Mechanical Locomotive—M L; R A; R B; R C

This Course includes all the subjects of the Mechanical and Locomotive Running, Division 3, Courses, given on pages 15 and 21.

Mine Mechanical—M

Arithmetic
Geometrical Drawing, 9 P.
Mechanical Drawing, 6 P.
Mensuration
Mechanics
Steam and Steam Boilers
Steam Engines
Air and Air Compression
Hydromechanics and Pumping
Mine Haulage
Hoisting and Hoisting Appliances
Surface Arrangements at Bituminous Mines
Surface Arrangements at Anthracite Mines
Compressed-Air Coal-Cutting Machinery
Percussive and Rotary Boring
Elements of Electricty and Magnetism*
Dynamos and Motors
Electric Hoisting and Haulage
Electric Pumping, Signaling, and Lighting
Electric Coal-Cutting Machinery

With the adoption of the order of studies here given some titles were changed; the subject matter was rearranged to a considerable extent; and new Papers were added.

Ornamental Design—D A; D B; B D; C D

Geometrical Drawing, 5 P.
Freehand Drawing, 6 P.
Historic Ornament
Elements of Ornament
Practical Design
Applied Design
Historic Ornamental Drawing, 5 P.
Color Harmony, 2 P.†

Wiring and Bellwork—E M; J B

Arithmetic
Mensuration
Electric-Light Wiring and Bellwork

Electrical—E F; E

Arithmetic
Formulas
Geometrical Drawing, 9 P.
Mechanical Drawing, 16 P. (2 Plates optional)
Geometry and Trigonometry
Elementary Mechanics
Algebra
Logarithms
Principles of Electricity and Magnetism
Electrical Measurements
Batteries
Applied Electricity
Electric Transmission
Electric Lighting
Electric Railways
Dynamo-Electric Machine Design
Motor Design
Theory of Alternating-Current Apparatus
Design of Alternating-Current Apparatus

Formulas is not sent to students taking Algebra directly after Arithmetic. With the adoption of the present order of studies some titles were changed; the subject matter was to a considerable extent rearranged; and several new Papers were added, the scope of the Course as a whole being increased.

Telephone Engineering—E G; T P

Arithmetic

Elementary Algebra and Trigonometric Functions
Elementary Mechanics
Principles of Electricity and Magnetism
Electrical Measurements
Batteries
Telephony

Gas Engines—M R; H G

Arithmetic
Mensuration
Elementary Algebra and Trigonometric Functions
Logarithms
Elementary Mechanics
Pneumatics, Gas, and Petroleum
Heat
Gas, Gasoline, and Oil Engines
Geometrical Drawing, 9 P. (Optional)
Mechanical Drawing, 9 P. (Optional)

School Teachers' Drawing—F H; F I

Geometrical Drawing, 9 P.
Freehand Drawing, 6 P.
Elements of Perspective
Perspective Drawing, 4 P.
Historic Ornament
Color Harmony, 2 P.

Electric Car Running—E O; J M

Motor Principles
Methods of Control*
Car Equipment
Heating and Lighting
General Instructions
Metallic-Return System
Brakes
Hints on Operation

Electrical Engineering—E W; E A; M E

Arithmetic

Dynamo-Electric Machine Design
Motor Design
Theory of Alternating-Current Apparatus
Design of Alternating-Current Apparatus

*Printed under the the title of Car Equipment, Parts 1 to 5.

Electrical Engineering—E W; E A; M E (Continued)

Formulas is not sent to students taking Algebra directly after Arithmetic. With the adoption of the present order of studies the titles of some electrical Papers were changed; the subject matter of the electrical Papers was to a considerable extent rearranged; and new Papers were added, the scope of the electrical part of the Course being increased. The option of taking Practical Projection and Development of Surfaces is regularly given to students having class letters E W.

Complete Coal Mining—N B; C M

Arithmetic
Geometrical Drawing, 9 P.
Formulas
Geometry and Trigonometry
Mine Surveying and Mapping, 5 P.
Gases Met With in Mines
Mine Ventilation
Economic Geology of Coal
Prospecting for Coal
Shafts, Slopes, and Drifts
Methods of Working Coal Mines
Mechanics
Steam and Steam Boilers
Steam Engines
Air and Air Compression
Hydromechanics and Pumping
Mine Haulage
Hoisting and Hoisting Appliances
Surface Arrangements at Bituminous Mines
Surface Arrangements at Anthracite Mines
Preparations of Anthracite
Compressed-Air Coal-Cutting Machinery
Percussive and Rotary Boring
Principles of Electricity and Magnetism*
Dynamos and Motors
Electric Hoisting and Haulage
Electric Pumping, Signaling, and Lighting
Electric Coal-Cutting Machinery'

With the adoption of the present order of studies some titles were changed; the subject matter was to a considerable extent rearranged; and new Papers were added, the scope of the Course as a whole being increased.

Surveying and Mapping—G C; S M

Arithmetic
Formulas
Geometry and Trigonometry
Geometrical Drawing, 9 P.
Surveying
Land Surveying
Mapping, 6 P.

Algebra and Logarithms were formerly included in this Course.

Sanitary Plumbing, Heating, and Ventilation—P A; P

Arithmetic
Geometrical Drawing, 9 P.
Mechanical Drawing, 10 P.
Mensuration
Mechanics
Plumbing Materials and Tools†
Plumbing and Drainage
Gas and Gas-Fitting
Electric-Light Wiring and Bell Work
Principles of Heating and Ventilation
Steam Heating
Hot-Water Heating
Furnace Heating
Ventilation of Buildings

Sanitary Plumbing and Gas-Fitting—P B; N

Arithmetic
Geometrical Drawing, 9 P.
Mechanical Drawing, 10 P.
Mensuration
Mechanics
Plumbing Materials and Tools†
Plumbing and Drainage
Gas and Gas-Fitting
Electric-Light Wiring and Bellwork

Sanitary Plumbing—P C; P N

Chinese Exclusion Law
Journalizing and Business Statements.
Reading Addresses
Copying Addresses
Comparing Addresses

A student enrolled under class letters I H, I K, or I L is first sent a preliminary examination, the nature and scope of which depends on the position for which he desires to qualify. His work on the preliminary examination will indicate in what subjects he is deficient and what Papers must be used to conduct the instruction. From the above list of subjects the student is then furnished instruction to meet his requirements.

Drawing for Monument Workers—S B Q; D D; D D A

Geometrical Drawing, 9 P.
Freehand Drawing, 6 P.
Elements of Architecture
The Formation of Letters, 10 P.

Mine Surveying and Mapping—S B Z

Arithmetic
